SUBSTITUTE SPECIFICATION PURSUANT TO 37 C.F.R. §1.125

BOX AF

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

Pursuant to 37 C.F.R. §1.125, Applicants submit herewith a substitute specification, excluding the claims. Applicants submit that the number or nature of the amendments made to the specification would make it difficult to arrange the paper for printing unless a substitute specification is provided. No new matter is added by way of the substitute specification. The changes are purely grammatical and/or formatting. A marked up version of the application showing all the changes made is enclosed herewith.

Respectfully submitted,

Date: November 9, 2001
